

CMT - Nordic business opportunities from coating and additive manufacturing

Seminar & workshop:

SURFACE ENGINEERING AND CMT

April 25th, 2018

Tampere University of Technology

Welcome to hear and share latest news and results about CMT in surface engineering in our seminar and workshop.

Project results will be presented and you have opportunity to bring your own case to be studied together with research group working in the CMT project. This is unique chance to find out new ideas and possibilities to benefit CMT in your own products. This event is free of charge. There are very limited number of places – book yours now!
